## **DETAILED ACTION**

### ***Allowable Subject Matter***

1. Claims 1-9 are allowed.
2. The following is an examiner's statement of reasons for allowance: Regarding claim 1, prior art taken either singularly or in combination fails to anticipate or fairly suggest the limitations of the dependent claims, in such manner that a rejection under 35 U.S.C 102 or 103 would be proper. The prior art fails to teach a combination of all the claimed features as presented in independent claims, which at least include a curved reflector member with a mirrored reflecting surface positioned between said laser source and said radiant energy altering device, said curved reflector member having a channel therein through which radiant energy from said laser source is projected towards said radiant energy altering device, and a cone shaped member having a polished surface, and wherein said radiant energy from said laser source strikes said radiant energy altering device and produces a disc of radiant energy that in turn strikes a surface of said curved reflector member and is reflected onto said polished surface of said cone shaped member, and wherein said radiant energy is reflected from said cone shaped member in a ring configuration to thereby produce a disc shaped optical line as claimed .

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
